The application has been amended as follows: claim 11, at section I), line 3, "fiourth" was changed to --fourth--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or suggest the device for supporting comprising the base having first and second leg portions, the first and second fixed vertical supports having a first end portion attached to the base portion such that the support extends upwardly in a substantially perpendicular fashion, the first and second slidable vertical support members including the interiorly-disposed slot, and an upper support member pivotally attached to the second end portions of the slidable vertical supports. The closest prior art, Loomis and Paulett, show trestles having slidable extensions; however, they are silent to a base having first and second leg portions and having first and second vertical supports attached substantially perpendicularly from the base portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
